***Healthcare is growing at a much higher rate than other fields.
That's why skilled Medical Transcriptionists are so valued by
doctors, hospitals, clinics and transcription services!***

**But it's not just the money that makes
Medical Transcription such a great career...**

Think of the satisfaction you'll get working with doctors and other medical professionals in a career that really helps people.

And if your dream is to work at home, think how you'll enjoy working the hours you want...being there for your children...saving money on child care, transportation, office clothes and much, much more.

**Americans visit physicians' offices
over 900 million times a year...**

And each of those visits requires the doctor to record the details of any exam or treatment he has performed on a patient. Each of the doctor's dictated reports must be transcribed into a hard copy. With those kinds of numbers, it's not surprising that Medical Transcriptionists are so important to the world of healthcare.
