Dear Friend,

Have you ever dreamed about stepping into a brand new, exciting career, but knew you couldn't afford to take the necessary time off from your current job to get the proper training? If so, this new, nationally accredited training program just might be the answer to your dreams.

U.S. Career Institute, a leading specialist in medical and healthcare training for more than 25 years, now brings you one of the most valuable programs we've ever offered...Pharmacy Technician!

**No previous medical experience necessary...  
no need to quit your present job.  
You train at home in your spare time!**

You can be ready to start your career as a fully trained Pharmacy Technician in as little as four months, or take longer to finish your course if you wish. No need to change your daily schedule...no need to take time from family or job. Study when you have the time and when it's convenient for **you**. There are no classes to attend, no schedules to keep, and no waiting for the next semester to begin. You can start right now!

**Earn a good income in a rewarding, secure, in-demand career!**

Now, more than ever before, a career as a Pharmacy Technician can be your path to success. The U.S. Department of Labor projects the field of Pharmacy Technician to grow much faster than most industries across the nation! What does this mean to you? **Many more job openings when you graduate and are ready to enter the workforce!**

Imagine...when you complete your training and are ready to start your job search, you'll find yourself in demand! You could possibly even end up

in the position of having to choose between several offers for Pharmacy Technician openings! And you will feel confident, knowing you have the knowledge, skills and qualifications required for all of them.

And think of how rewarding it will be to provide comfort and assurance to members of your community - a young mother worried about her sick baby, an elderly person overwhelmed by the complexities of insurance reimbursement, a teenage boy whose sports injury just put him out of commission for the rest of the season - the list goes on and on. **You** will be the person they turn to for relief and reassurance. And you will be respected for your knowledge, experience and empathy.

Pharmacy Technicians work in a wide variety of clean, organized settings - retail pharmacies, drug stores, hospitals, nursing homes, assisted living facilities, mail order pharmacies and government agencies - all of which require the skills you can bring to them with the cutting-edge training you'll receive from USCI.

**A day in the life of a Pharmacy Technician is never dull!**

You'll be busy working side by side with your pharmacist, providing medication and other healthcare products to patients. Pharmacy Technicians handle all aspects of preparing prescriptions. They verify that the information on the prescription is complete and accurate, and prepare the medication and the label for the appropriate container. Once the prescription is filled, the technician prices and files the prescription. Pharmacy Techs also are responsible for establishing and maintaining patient profiles, preparing insurance forms, and stocking and taking inventory of prescription and over-the-counter medications.

If you choose to work in a hospital environment, you'll have additional duties. You'll be involved in reading patients' charts and preparing and delivering their medication to them. You'll be responsible for copying the medication information onto each patient's profile. Pharmacy Techs in hospitals often are also in charge of assembling, packing and labeling a day's supply of medicine for each patient.

**Enroll now and save money.**

**No interest or finance charges on our low monthly payment plan!**

*No finance charges ever!*

We believe so strongly in our Pharmacy Technician Course that we've authorized our tuition office to offer you an easy monthly payment plan with absolutely no interest charges. Yes! You'll get everything that comes with the course - lessons, special supplements, CDs, learning aids and much more - so you can really fine-tune your skills as you are guided step by step through the course. Everything is yours to use during your training and afterwards in your career.

You'll also get toll-free help from your instructor during your training and even after you graduate. We will give you guidance on getting started in your career, preparing your resume, interview skills...whatever

information you need to get started. Your success is our top priority!

**Professionals in the healthcare industry  
will know that you "speak their language."**

Take this course and you will know how to talk to pharmacists, insurance representatives, medical administrators and other healthcare personnel. You will also know how to properly prepare your work to the exacting standards of accuracy and privacy that the medical field demands. You'll start with the basics and move on to advanced methods. You'll even learn all about rotating stock and monitoring expiration dates, as well as identifying expired products for disposal, destruction or return to the manufacturer. You will be a valuable right-hand resource to your pharmacist and your co-workers.

**No previous medical experience necessary!  
You don't have to change your daily schedule.**

Our experts have written this course for someone with no healthcare experience. Here's why it's all so easy...

- Everything is spelled out as simple as A, B, C.
- Lessons are divided into small, user-friendly sections so you need to study only a few hours a week.
- Custom textbooks, special supplements, CDs and study aids make learning easy and fun...so you progress even faster.
- Study at your own pace. Go as quickly or as slowly as you wish. Get your diploma in as little as four months or take longer if you wish.

**We're so sure you'll be able to master this course, we make this  
ironclad, no-questions-asked, Money Back Commitment.**

Send your small down payment with your enrollment agreement and we'll send you your first lesson package by return mail. Take up to seven full days to inspect it.

If, at any time within seven days of receiving your first lessons, you aren't 100% sure you can make good progress and enjoy a wonderful career, just call our toll-free number. Tell us you don't want to be a Pharmacy Technician and cancel your enrollment.

You won't owe a single penny more and we'll refund your down payment in full. No questions asked!

**U.S. Career Institute provides everything you need to complete your training.  
Plus you get toll-free Home Study Hotline support!**

It's all included at no extra cost and, remember, you can get all the

help you need from your instructors by making a simple toll-free phone call. You'll receive our custom textbooks, written by experts in distance education and reviewed by subject area specialists. They are specifically designed for quick comprehension and long-term retention...you learn quickly and remember it longer! And you'll find our special supplements and visual learning aids to be extremely valuable tools that will further reinforce your learning.
